

Hunton Trane Recognized as #1 Trane Commercial Office in 2006

January 2007

We are very pleased to announce that Hunton Trane won Trane's Pacesetter Award for 2006, in recognition of being the #1 Trane Commercial Team in the country.

The award is based on market share, market share growth, financial capability, volume and product sales performance. There are four Pacesetter groups, based on office size, and Hunton Trane is in the largest group. The travelling Pacesetter Bowl will be on display at the Hunton Trane office in Houston.

"High market share is a goal which all offices strive to achieve, and the Pacesetter offices achieve it on a consistent basis," said John Conover, president, Trane Americas sales. "As Trane continues its drive to be the number one choice of its customers for total solutions, Hunton Trane and the other Pacesetter offices are raising the stakes. Our sincere thanks to these offices for leading the way to top performance in 2006 and best wishes to all offices for their continued success."

We are very proud of the Hunton Trane team for delivering the outstanding performance that led to this extremely prestigious award. Congratulations for being the best of the best!
